

May, 2006

Bharat Biotech International Limited, Hyderabad and Institute of Genomics and Integrative Biology, Delhi, have been jointly awarded with the National Award.

The award is for developing technology for commercialization of recombinant human Epidermal Growth Factor (rhEGF) through a Public-Private Partnership under the Brand Name REGEN-DTM - 150 for diabetic foot ulcers and REGEN-DTM -60 for burns and skin grafts.

These products are introduced first time in India and conform to global standards of quality and have a competitive advantage of both affordability and availability to meet the requirements of the common man.

SEC Industries Private Limited, Hyderabad, has been awarded with Award to SSI Unit.

The award is for designing and manufacturing of Stretch Forming machine indigenously which is used to produce nose cone sections of missiles and aircraft.

The machine is capable of handling Titanium , an extremely difficult material to process and is capable of producing wide range of sizes from 300 to 1200mm length and 30 to 1000mm diameter.

The products obtained are wrinkle free, scratch free and dent free surface conforming to aerospace standards

Eagle Engineering Works , Chennai, has been awarded with Award to SSI Unit.

The award if for developing and manufacturing Custom MegaTM Prosthesis. The Custom MegaTM Prosthesis replaces bone defects after limb salvage for bone tumors in the anatomical area of shoulder, elbow, wrist, knee, ankle and pelvic region.

Awards will be given annually on the **Technology Day i.e. 11th May**
